How to Use This Vault

Dark blue label = prompt number and name. Red badge = the FREE app where you paste it. Just copy the prompt text, open the app, paste, and press Enter. Words in (round brackets) = replace with your own detail if you want a different output. Every tool below is free for students — no card, no payment.

Follow TICL Academy on Instagram and Facebook, and register for workshops on academy.ticl.in — we run many AI workshops and give certificates that help your career. Type "TICL Academy" in Instagram search to find us directly.

You want	Free app pipeline
Instagram Reel / short video	ChatGPT (script) → Veo inside Gemini app (free video clips daily) → CapCut / Canva free (join clips + captions + music)
Game / App / Website	Google AI Studio (Build mode) or Lovable (free daily credits) — paste prompt → working app → free share link
Resume	ChatGPT writes content → paste in Canva free resume template → download PDF
Banner / Thumbnail / Icon / Poster	Gemini (Nano Banana image model, free daily) → exact text and size in Canva
Music / Song	Suno (free daily songs); lyrics from ChatGPT → Suno "Custom" mode
PPT	Gamma.app (free credits) or Canva
Research / Study	Perplexity, Gemini Deep Research, NotebookLM (your own PDFs)

A. Study & Assignments

P1 — Concept in Pure Gujarati

App: ChatGPT / Gemini / Claude

Mane Business Communication no 'Effective Communication' topic ekdam saral ane pure Gujarati ma samjavo. Hu college student chhu. Roj-broj ni life nu ek example aapo (jem ke kirana dukan, ST bus, cricket). Ant ma 5 viva questions ane tena short answers Gujarati ma aapo.

Why you will love it: Any subject suddenly makes sense in your own language — kirana dukan example sathe!

P2 — Assignment Structure Helper

App: ChatGPT / Claude

I have a college assignment on "Artificial Intelligence in Daily Life" for the subject Business Communication. Do NOT write it for me. Instead: (1) give me a clear structure with headings, (2) explain each section in simple English + Gujarati mix, (3) give 3 diagrams I should draw, (4) list 5 points professors expect, (5) give me 3 questions to test if I understood it.

Why you will love it: Assignment plan ready in 30 seconds — and you actually learn it (viva-safe!).

P3 — Viva Rapid-Fire Trainer

App: ChatGPT / Gemini

Act as my strict external examiner for Business Communication viva. Ask me one question at a time in English. After my answer, tell me in Gujarati whether it was correct, what I missed, and how to answer better. Start with basic questions on communication skills and presentation, then increase difficulty.

Why you will love it: Practice viva alone at night — no fear, no judgment, full confidence next morning.

P4 — Instant Study Pack from Your Notes

App: NotebookLM (upload your notes PDF first)

From my uploaded notes, create: (1) a 1-page exam revision summary, (2) 10 MCQs with answers, (3) 5 most likely long-answer questions, (4) a simple Gujarati explanation of the 3 hardest concepts.

Why you will love it: Your own notes become a quiz + audio revision — perfect for bus/train study.

P5 — Seminar PPT in 2 Minutes

App: Gamma.app

Create a 10-slide college seminar presentation on "Artificial Intelligence — Future of Jobs in India" for BCA students. Simple English, one key point per slide, include: intro, 5 concept slides with examples, 1 real-world applications slide, 1 future scope slide, conclusion, thank you slide with a question for audience.

Why you will love it: Full designed deck before your chai gets cold. Professor impressed, guaranteed.

B. PPT & Projects**P6 — Final Year Project Ideas**

App: ChatGPT / Claude

Suggest 10 final year project ideas for a college student in Bhavnagar who knows basic computer, Canva and free AI tools. Each idea should: solve a local/Indian problem, be buildable with free tools, and impress examiners. Mark the 3 easiest ones and explain the first steps for each in Gujarati.

Why you will love it: No more 'library management system' — stand out with a local-problem project.

P7 — 3D Figurine of Yourself

App: Gemini (attach your photo)

Create a 1/7 scale collectible 3D figurine of the person in this photo, standing on a round acrylic base on a computer desk. Behind it, a toy box with the figurine's image and "TICL Academy Student Edition" written on it. Realistic studio lighting, shallow depth of field.

Why you will love it: The most-shared AI trend — your own action figure as your new DP.

C. Images & Creativity**P8 — Retro Bollywood Poster DP**

App: Gemini (attach your photo)

Transform this photo into a 1990s Bollywood movie poster. Dramatic pose, vintage grain, hand-painted look, bold Hindi-style title "Raju — Bhavnagar No Hero", sunset background with Takhteshwar temple silhouette.

Why you will love it: 90s filmi poster with YOUR face + Bhavnagar temple — group ma aag lagi jashe.

P9 — Bhavnagar Food Ad Poster

App: Gemini image mode

Create a cinematic food advertisement poster of Bhavnagar-style gathiya, fafda and jalebi served on a newspaper with a cutting chai, morning golden light, steam rising, dramatic food photography, bold Gujarati text: "ભાવનગર નો નારો" at the top.

Why you will love it: Local food + Hollywood lighting = the reel your foodie friends will repost.

P10 — Nature Photo Upgrade

App: Gemini (attach your Bhavnagar photo)

Enhance this photo I clicked in Bhavnagar. Make it look like a professional travel magazine cover: improve lighting and colors naturally, cinematic tones, do not change the actual scenery, add subtle text "Discover Bhavnagar" in the corner.

Why you will love it: Your Victoria Park sunset shot → magazine cover. Same photo, 10x wow.

D. Video & Music Basics**P11 — Photo-to-Video Reel**

App: Veo inside Gemini app (attach photo) → edit in CapCut

Animate this photo into a 5-second cinematic video: slow camera push-in, gentle wind in trees, golden hour light rays, birds flying in the background sky. Keep the person's face unchanged.

Why you will love it: Still photo becomes a living cinematic clip — instant reel material.

P12 — Your Own Garba Song

App: Suno

Upbeat Gujarati garba fusion song with dhol, modern EDM drop, female + male vocals. Lyrics about college friendship and dreaming big from a small city. Include the words "Bhavnagar" and "sapna" in the chorus. 90 seconds.

Why you will love it: An original garba track with Bhavnagar in the chorus — Navratri group anthem!

P13 — Reel Script Generator

App: ChatGPT → shoot & edit in CapCut

Write 3 Instagram reel scripts (15 sec each) in Gujlish (Gujarati + English mix) about free AI tools for students. Each must have: a scroll-stopping first line, 3 quick points, and a CTA. Tone: fun college student, not corporate. Also suggest trending audio type for each.

Why you will love it: Never stare at a blank screen again — 3 ready scripts per topic.

E. Websites, Games & Coding**P14 — Portfolio Website in 10 Minutes**

App: Google AI Studio (Build mode) / Lovable

Build a single-file HTML portfolio website for a BCA student named Raj Patel from Bhavnagar. Sections: hero with typing animation, about me, skills with progress bars (Canva design, MS Office, AI tools, communication), 3 projects, education, contact with Instagram/WhatsApp links. Modern dark theme, mobile responsive, smooth scroll.

Why you will love it: Send a LIVE website link with your name to recruiters — friends will ask 'kevi rite?!'

P15 — Bhavnagar Rickshaw Game

App: Google AI Studio (Build mode) / ChatGPT canvas

Create a fun browser game in a single HTML file: a rickshaw driving through Bhavnagar streets dodging cows and potholes, score counter, speed increases over time, game over screen with restart button, mobile touch controls. Colorful cartoon style.

Why you will love it: A playable game about YOUR city, made in one prompt — share link, watch scores fly.

P16 — Professional Email & Application Writer

App: ChatGPT / Gemini

Write a polite professional email in simple English for this situation: I need 2 days leave from college for a family function. Give me: (1) the email with proper subject line, greeting and closing, (2) a shorter WhatsApp version, (3) line-by-line Gujarati explanation of why each sentence is written that way, so I learn to write such emails myself.

Why you will love it: Leave application, complaint, request — any email ready in seconds, and you learn the format.

F. IT News, Stocks & Career Basics

P17 — Daily IT News in 60 Seconds

App: Perplexity / Gemini

Give me today's top 5 IT and AI industry news in simple Gujlish (Gujarati + English mix), each in 2 lines, with why it matters for an Indian IT student. Add 1 new free AI tool launched recently that students can try.

Why you will love it: Sound updated in every group discussion — 1 minute, zero newspaper.

P18 — Stock Market Learning (Education Only)

App: ChatGPT / Gemini

Hu stock market shikhi rahyo chhu (invest nathi karvanu, only learning). Infosys company su kare che, tenu business model, ane P/E ratio, market cap jeva 5 basic terms aa company na example thi saral Gujarati ma samjavo. Koi buy/sell advice nai aapta.

Why you will love it: Finance terms finally decoded in Gujarati — impress everyone at chai tapri.

P19 — Resume Content in 5 Minutes

App: ChatGPT → design in Canva free

Create a one-page ATS-friendly resume for a BCA student: Name Raj Patel, Bhavnagar. Education: BCA Semester 5, Bhavnagar University. Skills: MS Office, Canva design, AI tools, good communication. Projects: college event poster designs, personal portfolio website made with AI. No work experience — highlight projects, workshops (including TICL Academy AI Workshop) and self-learning. Give output in clean text format I can paste into Canva.

Why you will love it: Professional resume before your friends finish choosing a template.

P20 — English Speaking Partner

App: ChatGPT / Gemini voice mode

Be my English speaking practice partner. Have a casual conversation with me about college life. After every message I send, first reply naturally in English, then add one line in Gujarati telling me my mistake (if any) and a better sentence. Keep it friendly, not like a teacher.

Why you will love it: Practice English daily with zero embarrassment — Gujarati corrections included.

G. LinkedIn, Thumbnails & Icons

P21 — LinkedIn Banner

App: Gemini image mode → resize in Canva (1584×396)

Create a professional LinkedIn banner image, wide format. Theme: college student and aspiring professional. Modern gradient background in dark blue and teal, subtle technology and growth icons, clean minimal style, right side empty space for profile photo overlap, small text: "Raj Patel | Student | Learning AI & Communication Skills".

Why you will love it: Your LinkedIn instantly looks 3 years more professional.

P22 — LinkedIn Profile Makeover

App: ChatGPT / Claude

I am a college student from Bhavnagar with skills: MS Office, Canva design, AI tools, good communication; and projects: college event poster designs, personal portfolio website made with AI. Write for my LinkedIn: (1) a catchy headline under 220 characters, (2) an About section in simple confident English (no fancy words), (3) 5 skills to add, (4) my TICL Academy AI Workshop as a Licenses & Certifications entry, (5) my first LinkedIn post introducing myself.

Why you will love it: Complete LinkedIn glow-up in one prompt — recruiters actually stop scrolling.

P23 — YouTube / Reel Thumbnail

App: Gemini image mode → exact text in Canva (1280×720)

Create a YouTube thumbnail, 16:9. Topic: "Top 5 Free AI Tools for Students". Style: bright contrasting colors, shocked expression face on left side, big bold readable text on right: "FREE AI TOOLS!", arrow pointing at the main object, high click-through-rate style like Indian tech YouTubers, clean not cluttered.

Why you will love it: Clickbait-level thumbnail without paying a designer.

P24 — Logo + App Icon Set

App: Gemini image mode

Design a modern minimal logo for "Bhavnagar Foodies", a food review Instagram page. Flat vector style, 2 colors maximum, works in small size as app icon, on white and dark backgrounds. Show 4 variations in one image: icon only, icon + name horizontal, circular badge, and app icon with rounded square background.

Why you will love it: Start your page/startup with a logo that looks agency-made.

P25 — Instagram Highlight Icons

App: Gemini image mode

Create a set of 6 matching Instagram highlight cover icons in one image: Prompts, Workshops, Students, News, Tools, Contact. Minimal line-art style, single color orange icons on soft cream background, consistent stroke width, centered, circular composition.

Why you will love it: Matching highlights = profile looks like a proper brand page.

P26 — College Event Poster

App: Gemini image mode / Canva Magic Design

Design an A4 college event poster for "AI Awareness Day" at Sir P.P. Institute of Science, Bhavnagar. Energetic student vibe, bold title, date/time/venue section, QR code placeholder box bottom-right, modern gradient + geometric shapes, space at top for college and TICL Academy logos.

Why you will love it: Event committee hero moment — poster ready before the meeting ends.

H. Short Videos & Reels

P27 — 8-Second Cinematic AI Clip

App: Veo inside Gemini app (paste as video prompt)

Cinematic 8-second video: a college student in Bhavnagar opens a laptop on a rooftop at sunset, screen glow on face, camera slowly orbits, city and Takhteshwar temple silhouette in background, warm golden light, uplifting mood. No text on screen.

Why you will love it: Movie-trailer b-roll of your city, generated free — perfect reel opener.

P28 — Funny College Meme Reels

App: ChatGPT (script) → shoot on phone → CapCut

Write 5 funny 15-second Instagram reel scripts in Gujarish about college life in Gujarat: exam night panic, professor taking attendance, canteen food, viva fear, and group project ma ek j jan kaam kare. Each script: scene description, dialogue/text overlays, and which trending audio style fits (comedy/dramatic). Humor should be relatable, not offensive.

Why you will love it: Relatable Guju college comedy — the kind that gets sent to every class group.

P29 — 'Did You Know' Tech Reels

App: ChatGPT (script) → b-roll from Veo in Gemini → CapCut

Give me 10 mind-blowing "Did you know?" facts about AI and technology that Indian college students don't know, each written as a 20-second Gujarish reel script with: hook line, the fact explained simply, one desi example, and ending question to drive comments. Also give a matching Veo video prompt for background visuals for each.

Why you will love it: 10 ready-to-post informative reels — a full content week in one prompt.

P30 — Bhavnagar Food Vlog Reel

App: ChatGPT (script) → shoot at the shop → CapCut

Write a 30-second street-food vlog reel script in Gujarish for Das na Gathiya, the famous Bhavnagar gathiya shop. Include: 2-second hook ("Bhavnagar ma aa jagya e nathi gaya to..."), 3 quick shots to capture on phone, taste reaction lines, price mention, and CTA asking followers their favorite gathiya spot. Fun foodie tone.

Why you will love it: Foodie vlogging with a plan — hook, shots, lines, all scripted.

P31 — Caption + Hashtags Generator

App: ChatGPT / Gemini

Write 3 Instagram caption options in Gujarish for this reel: I made a 3D figurine of my own photo using free AI. Each caption: hook first line, 2 short lines, CTA, and 15 hashtags mixing big (#reels), medium (#gujarat #students) and local (#bhavnagar) tags. Tone: fun college student.

Why you will love it: Never post with a boring caption again — 3 options + hashtags in seconds.

I. Music & Song Creation

P32 — Farewell Song for Friends

App: Suno (paste in song description)

Emotional Gujarati-Hindi mix farewell song for college friends, acoustic guitar + soft tabla, male vocals, nostalgic mood, lyrics about hostel memories, chai ni kitli, last bench friendship and promising to meet again. 2 minutes.

Why you will love it: Play this at farewell and watch the whole class go emotional.

P33 — Lofi Study Music

App: Suno

Instrumental lofi study beats with soft rain sounds and a faint bansuri (flute) melody, calm and focused mood, no vocals, perfect loop for late night exam study. 2 minutes.

Why you will love it: Your personal exam-night soundtrack — made by you, for you.

P34 — Full Song Lyrics Writer

App: ChatGPT / Claude → paste in Suno 'Custom' mode

Write full song lyrics in Gujarati (with English transliteration) about Bhavnagar city ane nana sheher na mota sapna. Structure: verse 1, chorus, verse 2, chorus, bridge, outro. Catchy repeatable chorus. Also suggest genre, mood and instruments in one line I can paste into Suno's style box.

Why you will love it: You write the words, AI sings them — your first original release.

J. Apps, Websites & Games (More)

P35 — Notes-Sharing Web App

App: Lovable (free daily credits)

Build a simple web app called "BCA Notes Bhavnagar": students can browse subject-wise notes (Semester 1-6 tabs), each note card shows title, subject, uploader name and a download button. Include a simple upload form (title, subject, file), search bar, clean blue-white student-friendly design, mobile first.

Why you will love it: Become the classmate who built 'the notes app' — legend status.

P36 — Exam Quiz App

App: Google AI Studio (Build mode)

Build a quiz web app for BCA exam prep: I paste my syllabus topic, the app generates 10 MCQs one at a time, shows correct answer with 1-line Gujarati explanation after each attempt, keeps score, and shows a result screen with weak topics at the end. Colorful, mobile friendly, single page.

Why you will love it: Turn any syllabus topic into a game — study without feeling like study.

P37 — Hostel Expense Tracker

App: Google AI Studio / ChatGPT canvas (single HTML file)

Create a single-file HTML expense tracker for hostel students: add expense (amount, category: food/recharge/travel/other, note), monthly total, category-wise pie chart, budget limit warning in Gujarati ("Bhai, budget puru thava aavyu che!"), export to CSV button. Dark theme, mobile friendly.

Why you will love it: Finally know where the pocket money goes — with a Gujarati warning!

K. Freelancing, Selling & Earning

P38 — Freelancing Starter Roadmap

App: ChatGPT / Claude

I am a BCA student with skills: Canva design, basic HTML, video editing; and 2-3 free hours daily. Give me a 30-day roadmap to earn my first freelancing income: (1) which skill to sell first, (2) exact steps to create profiles on Fiverr, Upwork and Internshala (account → profile → first gig), (3) how to get first 3 clients with zero reviews, (4) fair beginner pricing in INR, (5) common scams to avoid, (6) how to receive payment in India as a student.

Why you will love it: From zero to first freelance income — full 30-day map, scam warnings included.

P39 — Fiverr Gig Writer

App: ChatGPT

Write a complete Fiverr gig for my service: "I will design Instagram posts for small businesses". Give me: SEO gig title, 5 search tags, gig description with bullet points, 3 pricing packages (Basic/Standard/Premium in USD with what's included), FAQ section (5 questions), and requirements I should ask the buyer. Beginner-friendly pricing.

Why you will love it: Copy-paste a professional gig while others struggle for weeks.

P40 — Upwork Proposal Writer

App: Claude / ChatGPT

Write a short winning Upwork proposal (under 150 words) for this job post: (paste the job post here). Rules: first line must show I read the job, mention 1 relevant thing I made, ask 1 smart question, no "Dear Sir", no begging, confident but honest that I am a student with fresh energy and low rates.

Why you will love it: Proposals that sound human — the #1 reason beginners get replies.

P41 — Sell Online from Bhavnagar

App: ChatGPT / Perplexity

I want to sell handmade rakhi and craft items online from Bhavnagar as a student with under ₹2000 budget. Give me step-by-step: (1) best platform to start (Instagram shop vs Meesho vs Amazon vs WhatsApp Business) with reasons, (2) account and listing setup steps, (3) product photo tips using just my phone, (4) pricing and packaging basics, (5) how shipping/COD works for a small seller in Gujarat, (6) first 10 customers plan.

Why you will love it: A real mini-business plan — start earning from your hostel room.

P42 — 10 Realistic Ways Students Earn

App: ChatGPT

List 10 REALISTIC ways a college student in a tier-2 city like Bhavnagar can earn ₹3000-10000/month, using only a phone/basic laptop and free tools. For each: what it is, skill needed, free AI tool that helps, time to first income, and one warning. NO trading tips, NO crypto, NO refer-and-earn schemes, NO paid courses. Rank easiest first.

Why you will love it: Honest earning ideas only — no scam, no course-selling trap.

P43 — Local Client Outreach Message

App: ChatGPT

Write 3 short WhatsApp/DM messages in Gujarish I can send to local Bhavnagar shops (cafe, clothing store, coaching class) offering to make their Instagram posts or a simple website as a student freelancer. Friendly, not salesy, mention I will show 1 free sample first, and include a soft price hint. Also tell me the best time and way to approach them.

Why you will love it: Your first client might be the cafe you already sit in — just send this.

L. Research, Jobs & Local Life

P44 — Deep Topic Research

App: Gemini Deep Research / Perplexity

Research the topic "Impact of AI on Indian IT jobs" deeply for my college project. Give me: overview in simple English, 5 key subtopics explained, latest 2025-26 developments, real Indian examples, statistics with sources, counter-arguments, and a final summary I can understand in Gujarati. List all source links at the end.

Why you will love it: Project research with real sources — hours of library work in minutes.

P45 — Project Research Pack from PDFs

App: NotebookLM (upload your PDFs first)

From all my uploaded sources, create: (1) a project report outline with chapter headings, (2) key points per chapter with which source they came from, (3) 10 possible questions my guide/examiner will ask with answers, (4) an audio overview I can listen to while travelling. Keep language simple.

Why you will love it: Your PDFs become a podcast + report outline — study while travelling.

P46 — Jobs & Internships Finder Plan

App: Perplexity / ChatGPT

I am a 3rd year college student in Bhavnagar with skills: MS Excel, Canva design, good communication. Give me: (1) 5 realistic internship/job roles I qualify for right now, (2) exactly where to find them (LinkedIn search terms, Internshala filters, company career pages, Gujarat govt portals), (3) which ones allow remote work from Bhavnagar, (4) a 15-day action plan with daily tasks, (5) a short intro message to send to HR/recruiters.

Why you will love it: Stop random applying — get a targeted 15-day plan with exact search terms.

P47 — Room / PG Hunting Kit

App: ChatGPT

I am a student searching for a room/PG near Bhavnagar University area. Create: (1) a checklist of 15 things to verify before paying deposit (rent terms, light bill, water, curfew, food, agreement), (2) a polite Gujarati message to send to owners/brokers asking key questions, (3) red flags of rental scams, (4) negotiation lines to reduce rent/deposit politely, (5) where students find rooms (Facebook groups, NoBroker, MagicBricks, local contacts, college seniors).

Why you will love it: Never get cheated on deposit again — full checklist + Gujarati messages.

P48 — Bhavnagar Food & Hangout Guide

App: Perplexity / Gemini

Make a list of famous and trending food spots and hangout places in Bhavnagar for college students: legendary old shops (gathiya, dabeli, ice cream, pau bhaji), new trending cafes, budget spots under ₹100, and best photo-worthy places (parks, lakes, temples, beach nearby). For each: what to try, rough price, and best time to go. Format as a fun Gujarish guide I can share in WhatsApp.

Why you will love it: The ultimate weekend plan generator — food + photo spots sorted.

P49 — Career Options After BCA

App: ChatGPT / Gemini

Explain the top 10 career paths after BCA in 2026 in Gujarish: developer, data analyst, AI/ML, cloud, cyber security, UI/UX, digital marketing, QA testing, govt IT jobs, MCA/higher studies. For each: what the work is (1 line), starting salary range in India, free resources to start learning, and whether it's possible to start from a tier-2 city like Bhavnagar. End with a simple table ranking them by demand vs difficulty.

Why you will love it: Clear career map with salaries — the talk every BCA student needs.

P50 — 30 Days of Instagram Content Ideas

App: ChatGPT / Claude

Generate 30 Instagram reel ideas for a student page: 10 funny relatable college memes, 10 informative AI tool tips, 5 Bhavnagar local content (food/places), 5 motivational student stories. For each idea: 1-line concept, hook line in Gujarish, and format (talking head / screen recording / meme / vlog). Arrange as a 30-day calendar table.

Why you will love it: A whole month of content planned in one prompt — never run out of ideas.
